Full stack developer with more than 20 years of digital and print design, tech operations, and data management experience in a variety of industries. From creating digital archives to founding and managing a retail store and ecommerce business, my experience in tech-adjacent roles enables me to be both pragmatic and forward-thinking. I aim to utilize my design and development skills with current technology to build seamless and dynamic user-friendly experiences.

LANGUAGES AND TECHNOLOGIES

- Languages: JavaScript, Ruby, HTML, CSS, SQL
- Technologies: Ruby on Rails, React.js, Postgres, SQL, SQLite, Node.js, Git/GitHub, Relational Databases
- Working knowledge: TypeScript, PHP, Angular, Next.js, SCSS, Bootstrap, Tailwind, Object-Oriented Programming

TECHNICAL PROJECTS

Workspace   GitHub | Demo | Blog
Productivity app to manage design projects and related image assets.

- Implemented user interface employing React, BCrypt for authentication and authorization, and Styled-Components for styling.
- Modeled custom Ruby on Rails database schema and REST API with Active Record, Active Storage, and PostgreSQL to communicate with React.
- Utilized The Color API and Unsplash APIs to pull and parse data for interactive color schemes and image searches.
- Integrated Flatiron Phase 1 project, functioning as a digital color resource guide showcasing a React Color Picker component.
- Integrated Flatiron Phase 2 React project, demonstrating how to use CSS to manipulate images.

Cookbook Club Site   GitHub | Live | Blog
Site for a local group to showcase club meetings and book choices.

- Developed with Vanilla JavaScript, HTML5, and CSS3.
- Designed mobile-first with responsive layouts for tablets and desktops.
- Created all imagery with Adobe Creative Suite.

WORK EXPERIENCE

Print Production Specialist   Grey Printing, Cold Spring, NY   **April 2016–March 2020**
Worked with a small team on print production, graphic design, and special projects including re-branding the print shop and building an e-commerce site.

- Brought the company from an analog workflow to a digital one, which included inventory handling and sales processes.
- Daily interaction with customers, both in-person and over phone and email.

Small Business Owner   Clay Wood & Cotton, Beacon, NY   **Sept 2009 - Sept 2016**

- Owned and operated a retail shop with both a brick and mortar location and ecommerce site.
- Oversaw a small staff and ensured that day-to-day operations ran smoothly.
- Handled all customer relations, inventory, marketing materials and social media.
- Developed and maintained shop website and ecommerce using Shopify, Magento, and inventory software.

Digital Asset Manager   Various, NY   **2001 - 2008**

- Created a comprehensive implementation plan, built and maintained the digital asset library for the Culinary Institute of America.
- Created and maintained the digital asset library and portfolio website for Redux Pictures.
- Handled daily photo submissions, syndication and archiving for Corbis News and Saba Photos.

EDUCATION

- **Flatiron School**, Software Engineering Certificate, Full Stack Software Engineering Program

  15-week intensive bootcamp working with JavaScript, React, Ruby, Ruby on Rails, HTML, CSS, jQuery,
  SQL, PostgreSQL, Bootstrap, Sinatra, and RESTful APIs   **2022**

- **Louisiana State University**, Bachelor of Fine Arts, Photography concentration   **1999**
